RE: Master Metals, Inc, Site, Cleveland Ohio Approval to the Field Modification on Treatment Methodolgy

Mr. Casey,

Thank you for your request asking for approval for the treatment methodology field modification. This email is to grant the approval of the requested field modification for the treatment of lead impacted soils. The request to allow the treatment of the lead contaminated soils to be conducted in the bed of an 8-ton truck instead of using the constructed Jersey type containment system is an acceptable substitute.

If you have any questions or need additional information, please do not hesitate to ask.

Sincerely,

Gwendolyn Massenburg
Remedial Project Manager
